ORDER TO SHOW CAUSE
NO. ACT/027/006

IN THE MATTER OF THE APPROVAL OF THE NOTICE OF
INTENT AND RECLAMATION PLAN SUBMITTED BY
CONTINENTAL LIME, INC., MILLARD COUNTY, UTAH.

THE STATE OF UTAH, TO ALL OPERATORS, TAKERS
OF PRODUCTION, MINERAL AND ROYALTY OWNERS,
AND PARTICULARLY ALL PERSONS INTERESTED IN
SECTIONS 25 and 36, TOWNSHIP 21 SOUTH, RANGE 10
WEST, SLBM, MILLARD COUNTY, UTAH.

Notice is hereby given that tentative approval was given
by the Utah Division of Oil, Gas and Mining, on March 27,
1980, to Continental Lime, Inc., 268 West 400 South, Suite 201,
Salt Lake City, Utah 84101, to commence surface mining of
limestone in portions of Sections 25 and 36, Township 21 South,
Range 10 West, Millard County, Utah. The name of the mine is
Cricket Mountain Lime Plant Quarry, and the person repre-
senting the company in this matter is Mr. Wayne Nixdorf,
Plant Manager, Continental Lime, Inc., Box 266, Delta, Utah
84624.

Continental Lime, Inc. has fulfilled obligations under the
Mined Land Reclamation Act of 1975 (Section 40-8, U.C.A.,
1953, as amended), and will employ the following reclamation
techniques on approximately 276 acres of State leases and
land administered by the Bureau of Land Management.

- During Operations:
1. Mining will be conducted in a safe, orderly and
minerlike fashion and in such a manner as to mini-
mize visual and environmental degradation.
 2. Prior to commencement of operations, available
topsoil and overburden materials will be removed and
stockpiled for redistribution on disturbed surface
areas at the time of reclamation.
 3. Mining will be carried out in a benching fashion
using a drill and blast procedure.
 4. The limestone will be crushed and screened on-site
then trucked to the processing plant approximately 6
miles away.
 5. Dust from the crushing operation will be suppressed
by either spraying with water, if available, or installa-
tion of a baghouse. The access-haul road will be
sprayed.

After Operations:

1. All extraneous debris, scrap metal, wood, trash, and
structures will be removed from the site.
2. The disturbed areas will be recontoured to the most
stable slopes possible.
3. Available overburden and topsoil will be spread
over the disturbed surfaces to the extent possible and
the areas will be scarified, and revegetated with an
approved seed mixture.
4. Appropriate measures will be taken to protect the
seeded areas from grazing while vegetation is becom-
ing established.
5. All disturbed areas will be monitored and reseeded
if necessary.

Reclamation performance surety will be established prior
to final approval of the mining and reclamation plan.

Any person or agency aggrieved by this tentative decision
is hereby requested to submit written protest within 30 days of
April 3, 1980, to the Division of Oil, Gas, and Mining, 1588 West
North Temple, Salt Lake City, Utah 84116, setting forth factual
reasons for his complaint, and thereafter at time and place
hereof established, appear before the Board of Oil, Gas and
